118--124 JAMES STREET NORT

[illegible][illegible]

Stewart has ever had a girl, in "Judith," the small-town girl, in "The Screen Bill" at Loew's next week. The action is swift and snappy, and the portrayal of the lovely star an artistic delight.

It is a pity that the lovely young woman to vilify her in the eyes of her husband, Judith, signs over her rights to the picture to the man who hired her by the father of her husband. This is only one of an exciting and interesting series of incidents in the Kingdom of Dreams, such a powerful human document.

It is a pity that Stewart plays the part of a country girl, with an increasing plausibility, with a character who is a city girl. Then she is called as the private secretary to a Wall Street millionaire, and her character spreads upon the silver screen, this versatile star is given fullest scope for her talents, and her character travels to the uttermost. Judith's loyalty to her employer prompts him to marry her, and she is to be absolute seen. The marriage, thought to be a happy one, is a disaster. She is thrown into a husband-and-wife device that saves a tremendous industry, and she is the only one to see the happiness of Judith herself.

The cast is a brilliant one. Mahon is the villain, and his character is a classic usual distinction and charm.

For a number of years, American sentiment has been for Australia, and now Australia is sending them here. It is a pity that so many early persons who visited Australia were not of the type of the "Lynx," a magazine of praise for Ed. Ford, considered one of the best of the Australian writers. It is a pity that he was induced to come to America, and that he was not allowed to never overlooks any of the stars and actresses of the day. The "Lynx" is included in his Canadian edition. He will be there next week along with the "Lynx," and he will be a note who has already established himself with local theatre patrons, and who is in vanguard for a limited time, the shiny king. The big picture feature next week will introduce the "Lynx" to the public, and it is written and produced by William Fox by Oscar C. Apfel. The production is a masterpiece, and the picture is real and complete. The romance and situations are so well handled, and the picture will with Anna Held, Jr. and other talented actors is making a big hit.

Margie Serlier has abandoned fiction. He is now writing adventures. Margie "Huggins" has dyed mean. abandoned fiction.

# Expert "Pans" Jo Beckett

## Used No Judgement He Says. Wild Time in Paris

(Canadian Press Wire.)

London, Dec. 5.—Experts, in commenting on last night's fight, in which Jo Beckett, the Englishman, defeated Joe Beckett, of England, in the first round, were in general agreement that the Englishman was the best man and that Carpenter won by his speed and unexpected tactics.

Beckett's manager says Carpenter "brought off a million-to-one chance" and that he was "a very good-looking, the Daily Mail's critic accusing Beckett of "sheer stupidity."

Beckett was by long the best of the handicap. The Daily Mail's expert says he was "wonderful in weight, wild and reach. He is a great fellow physically, but the less said about his judgment was better. Perhaps he was over confident, but anyway he gave his opponent a chance which no boxer would have offered. The blow with which Carpenter won was too heavy for Beckett to evade, and he could not have avoided, and the counter to it would have been an extremely dangerous blow which walked right into the danger zone. What he did was simply to stand stupid and there was no excuse for him."

After Carpenter had been carried away, Beckett was congratulated cordially shook his hand and congratulated him. The Prince also shook hands with Beckett and his manager next time.

Beckett, Dec. 4. (Haras)—The victory won by Georges Carpenter over Jo Beckett created great enthusiasm in the English press. The English newspapers and in cafes for the sports of the fight. All French sportsmen were very interested in the fight, but were greatly surprised when they learned that Beckett had defeated his adversary so quickly.

Englishmen who were in the city at the time of the fight, called Jo Beckett a "French 'bravo' and sang 'God Save the King.'" The French joined in the singing and the Englishmen threw balls and casino performances were given in the city.

The fight could be announced. All Paris newspapers comment upon the "realization" of the Englishman's victory. He can now aspire to the title of "champion."

## \$10,000 FOR IDEAL PLAN

Big Prize for One Which Rises Vertically.  
 Time is Ripe for It, Says An Expert.

New York, Dec. 4.—The Aero Club of America announced today the offer of a prize of \$10,000 to be awarded to the person who evolves and demonstrates the first aircraft which will rise from and land on ground vertically, and will, in other words, make it possible to rise from and land on the roof of a medium-sized house.

The prize has been offered by the French millionaire and supporter of aviation, Michelin, through the Aero Club of France, which is affiliated with the Aero Club of America.

## INCREASES TO TEACHERS ARE APPROVED OF

Some Slight Changes Made By the Internal Management Committee.

## SHORT OF COAL

Night Glasses Will Close and Even Then There is Danger.

"It will be a serious problem to keep our schools open if a frost supply of coal is not forthcoming," said Secretary R. H. Foster to the members of the internal management committee of the board of education at a meeting last night. He said strict conservation was necessary, and urged to City Clerk Kent's warning. Mr. Kent advised that the night schools be closed.

The board admitted the seriousness of the situation, and will urge upon the school trustees the necessity of conservation. Practically all the schools will have to close unless there is relief within a few weeks. Shortage of space for the storing of coal, the result of mistakes in the construction, was blamed for the present conditions.

Strathcona and Victoria avenue schools are the worst sufferers in this respect. It was stated that "To adjust a little matter," the committee held a secret caucus prior to the regular meeting. What the "little matter" discussed was, was not announced.

**SALARY INCREASES.**  
 Mr. Lanier, chairman of the salary committee, presented the recommendations of this body in regard to increased salaries.

When the salaries of drill instructors was being discussed, Chairman Lanier said: "The discussion at the conference depends on these instructors. It used to be a joke, but it is different now."

Principal Turner agreed with him. He said that principal Turner was not a principal, but a man who thought that he was. He said that he was not a principal, but a man who thought that he was.

Mr. Lanier said that he was not a principal, but a man who thought that he was. He said that he was not a principal, but a man who thought that he was.

## MOTHER HAD TO PROTECT HER SON UPON BED

Could Hardly Get His Breath at Times—Is Now the Picture of Health.

"My son, Francis, is the picture of health since his recovery through the use of 'Tasol,' said Mrs. Anna Harty, living at 12 Walker street, Kingston Road, North Beach, Toronto, Ont.

"My boy had been suffering for several years," she continued, "with all the symptoms of asthma and catarrh and couldn't stand the least exertion without catching cold. His bronchial tubes and nasal passages seemed to be completely stopped up and at times he would have terrible fits of coughing that I would have to prop him up in bed at night before he could get a good breath. I had him treated for years but he only found a little temporary relief."

"As everything else had failed to help him I thought I would give him 'Tasol' and it is simply wonderful the way it helped him. His catarrh is all gone and every symptom of asthma and his health is better than it has been in years. In fact he is just like a different boy. He is going to school regularly and is feeling fine."

"Tasol" is sold in Hamilton by Parke & Clarke and by an established agent in every town.

Department of Education had deducted from the grant the money collected by the board from day-school teachers, who took night classes also, and contributed to the regular meeting.

The committee asked for a ruling on this point, but was never successful in obtaining it.

**REPORTS.**  
 The monthly reports from the college showed the following attendance: Nov. 1919, 1919, Dec. 1919, 1919, Jan. 1920, 1920.

**NOTES.**  
 Miss Mariel Robbins was granted leave of absence until Jan. 1, 1920. Leave for three months was granted Miss Maude Lester, and Miss Louiseburg was given leave until Jan. 1, 1920. Miss Simpson was given leave until September.

# Another Splendid Offering of Men's Holiday Neckwear

## Knitted Ties, 85c

A special purchase to go on sale at a special price—the quantity is limited so early buying is advisable.

Men's Knitted Fibre-Silk Ties, in a wide variety of designs—including border effects, fancy stripes and all the popular plain shades. These are reproductions of the high-grade knitted silk ties so much in demand.

The price we quote is not an index of the value—on sale to-morrow, a.m., while stock lasts, on—85c

Also a handsome range of the wide Knitted Silk Ties in big variety of colorings! Each \$2.00

## Many Gifts That Men Will Appreciate and Use—

**Mufflers**  
 —Of brushed wool, soft and warm, finished with fringe, shades of brown, green, and grey. Ea. \$1.50, \$2.00, \$2.50, \$3.00.

**Men's Hose**  
 —Of pure silk, full fashioned with double heel sole, heels and toes, in black, brown, navy and smoke. Pr. only \$2.00.

**Men's Gift Handkerchiefs**  
 —Qualities like these are scarce at our price.

—Men's Initial Handkerchiefs, of fine cambric, best quality. 6-10 box, \$2.50, Ea. 25c.

—Men's Initial Handkerchiefs, of sheer cambric with cord border and hemstitched. New style long initials. 6 in box, \$2.00. Ea. 35c.

**Suspender Sets, Etc.**  
 —Suspenders and Garter Sets, extra good quality. Each set in fancy box. \$1.50.

—Suspenders, Knives and Garter Sets in fancy box. Set, \$1.50.

—Right House, Street Floor.

## If It Is a Half-Holiday For Dad Bring Him Along to Toyland

—He'll enjoy it as much as the kiddies tomorrow, for it takes a long time to lose that boytime curiosity about "what makes 'em go," and so he'll find as much pleasure as anybody in looking things over.

## At The Right House All Toys Are New

As We Have Toyland at Xmas Time Only

**Sleighs**  
 —"Silver Frost," self steering, easy running. \$2.25 to \$3.00.

—Sleighs for children, white enameled. \$1.25 to \$1.75.

—In natural finish. \$2.00 and \$2.50.

—Boys' Sleds in natural finish. \$1.25 to \$1.75.

**Electric Elevator**  
 —Electric Elevator, \$30.00.

—Scraper, ten stories high. \$100.00.

—For electric lights. \$2.00.

—Electric driven Battle-ship. \$1.00.

—Right House, Fifth Floor.

**Sidewalk Autos**  
 —Sidewalk Autos with center drive, fenders decorated, rubber tired. \$10.00 to \$30.00.

—Tricycles. \$5.25 to \$6.50.

**Laundry Set**  
 —Complete Laundry Set, including tub, wringer, glass, washboard, spinet clothes basket, clothes reel, clothes pins, etc. \$3.25.

—Dumping Sander. \$1.25.

—Right House, Fifth Floor.

# THE HYDROBOAT

Fastest of Water-Borne Craft, Latest Product of Graham Bell's Genius

(Robert G. Sherratt in New York Sun)  
A mechanical water bug capable of making seventy miles an hour in the open sea, the Hydroboat is the latest creation of the genius of Alexander Graham Bell. True, the technical details of the Hydroboat are not yet complete, but from a practical point of view the creation may be said to be a skin on wheels, with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

EXPERIMENTED WITH KITES  
Aeronautics has appealed to this may-day genius, and sometimes in the past years ago Mr. Bell made a series of exceedingly suggestive experiments along the lines of the Hydroboat. These kites he described as "inflations on the road to progress," and he was so disposed to give them the name of "hydrokites." He demonstrated that the limits of the application of the airship were not as great as he had supposed, and he was so disposed to give them the name of "hydrokites." He demonstrated that the limits of the application of the airship were not as great as he had supposed, and he was so disposed to give them the name of "hydrokites."

While these facts of physics are interesting, still there are apparently kindred reactions in both air and water. When a body rises through the air, it is the result of the air being displaced by the body. Similarly, when a body rises through the water, it is the result of the water being displaced by the body. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

THE HYDROBOAT  
The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

NOT A HYPERPLANE  
The Hydroboat is not a hyperplane, but it is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

small until you remember that the supporting surface required to carry a given load is in inverse proportion to the density of the medium in which it acts. The specific gravity of salt water is 1.025, and the specific gravity of air is 0.0012, and this means that the lifting surface required to support a load of 1,000 lbs. in air is 1,000 times the size of that required in water.

To other words, an airplane carrying the same load would need a supporting surface of 1,000 times the size of the Hydroboat. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

According to Mr. Nutting: The function of this air surface as well as that of the deck of the Hydroboat is to provide an air cushioning effect which plays the part of a shock absorber when the machine is travelling in disturbed water. Again, he tells us, the Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

SELF-KEEPING ACTION  
The way in which the main hydrofoil is in size from top to bottom is so arranged that it will be self-keeping. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

THE HYDROBOAT  
The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

THE HYDROBOAT  
The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water. # The Creator of "Dickey's Dogs"

By Robert L. Dickey, Creator of "Dickey's Dogs"

I was so young when I first became interested in dogs as subjects for an artist's pencil that I should have been a boy with a dog, and not a man with a dog. I was so young when I first became interested in dogs as subjects for an artist's pencil that I should have been a boy with a dog, and not a man with a dog. I was so young when I first became interested in dogs as subjects for an artist's pencil that I should have been a boy with a dog, and not a man with a dog.

late John Ames Mitchell, of Life, that I should have been a boy with a dog, and not a man with a dog. I was so young when I first became interested in dogs as subjects for an artist's pencil that I should have been a boy with a dog, and not a man with a dog. I was so young when I first became interested in dogs as subjects for an artist's pencil that I should have been a boy with a dog, and not a man with a dog.

# Alies Will Enforce German Rafters

Glasgow, Dec. 4.—Addressing a political demonstration this evening, Andrew Bonar Law, Lord Privy Seal and Government leader in the House of Commons, alluded to German "apparent attempts" to evade ratification of the peace treaty owing to the delay of the United States in signing it.

Greenwood, "Alum," Fred, Gaffer, Dick, Jack, and others, were present. The Hydroboat is a small, sleek, and fast, with a hull of water, and with a motor and a propeller, and with a hull of water.

# U.S. AFTER THE HYPERPLANE

Indanapolis, Ind., Dec. 4.—Upon the heels of its institution of contempt proceedings against officials of the United Mine Workers of America, the Government has taken steps to broaden the scope of the strike of coal miners, and will investigate alleged violations of the Labor Law by the United Mine Workers of America.

# Allege Violations of Two Laws by Mine Owners

Six U. M. W. Leaders Furnish Bonds  
Indanapolis, Ind., Dec. 4.—Upon the heels of its institution of contempt proceedings against officials of the United Mine Workers of America, the Government has taken steps to broaden the scope of the strike of coal miners, and will investigate alleged violations of the Labor Law by the United Mine Workers of America.

# DIXIE MINSTRELS

Fine Performance at First Methodist Church  
Under the direction of Mr. Harry J. Smith, the Dixie Minstrels of First Methodist Church gave a most enjoyable and interesting performance last evening. The place was filled with an appreciative audience, and the minstrels thoroughly enjoyed a bright, sunny, clear show. A chorus of eight men, with the backing of the fine musical programme, this evening was a most successful one.

# NEW SPEAKER ACTS UNFAIRLY

Liberal Leader's Claim Against N. Parliament.

Dewart Says Matter Will Be Considered.

Toronto, Dec. 5.—Apparently Mr. H. Dewart, Liberal member of Parliament, is not satisfied with the announcement of Premier Dewart to Nelson (Nelson) that the Liberal M.P. named Speaker of the next Legislature. Mr. Dewart, when seen yesterday, said that he had not entered into the negotiations. The Speakership without the knowledge of Mr. Dewart, said.

# BUSINESS WITH MEMORIAL PLAN

I.O.D.E. National Executive Monthly Meeting.

Will Entertain Lady Jellicoe at Toronto.

Toronto, Dec. 5.—The details concerning the War Memorial campaign were discussed at the monthly meeting of the I. O. D. E. National Executive. The meeting was held at the Hotel Toronto, and was attended by a large number of members. The meeting was held at the Hotel Toronto, and was attended by a large number of members.

# Beck Advising Handing Control to the Hydro

In Connection With Proposed System  
Guelph, Dec. 4.—The giving over to the Hydro-electric Power Commission of the absolute control of the streets and highways of Guelph, Ontario, is being considered by the City Council.

# ASSASSIN WOUND SEVEN WHILE IN A MOTOR.

Victims Returned Fire, Wounding Some.  
London, Dec. 4.—All the members of a shooting party, including H. V. O'Brien, who was shot in the leg, were returned to the hospital. The shooting party was returning from a shooting party in the country.

# STEAMSHIP ARRIVALS

Teacher—How many sexes are there? Little Boy—Three. Teacher—Why are they? Little Boy—Because they are the female sex and the insects—London Ideas.
